# Zoltan Borsos

## Full-Stack Web Developer

Full-stack web developer with consistency, fast learning, and problem-solving skills. Always tries to see things from the consumer's point of view, and develops websites and applications with such mindset.

## Projects

### MyFlix Application

A one-person project where both the server-side and the client-side of the app were created from scratch.

[MyFlix Demo](#)

[Frontend GitHub Repository](#)

[Backend Github Repository](#)

[Case Study](#)

### Chat App

The app is created via React Native and usable through 'Expo'. The users of the application have a chat interface, where all users can chat with each other..
