    - React
    - Angular
    - Express
  - Python
    - Django

- Version control
  - Git
  - GitHub

- Soft Skills
  - Fast learning
  - Prioritization
  - Active listening
  - Thoroughness

Zoltan Borsos-Kosi
Full-Stack Web Developer

Full-stack web developer with consistency, fast learning, and problem-solving skills. Always striving to see things from the consumer's point of view, and developing websites and applications with such a mindset.

Projects

MyFlix Application

A one-person project where both the server-side and the client-side of the app were created from scratch.

MyFlix Demo
Frontend GitHub Repository
Backend Github Repository
Case Study

Chat App

The app is created using React Native and is accessible through 'Expo'. Users of the application have access to a chat interface where they can communicate with each other.

Certificates

Full-Stack Web Entwickler Course

- CareerFoundry GmbH
- **Python for Web Developers**
  - February 2024
- **Full-Stack Immersion**
  - August 2023
- **Intro to Frontend Development**
  - December 2022

Former Workplaces

- **09/2023 - auch noch**
  Hermann Schnierle GmbH

  Dieselstraße 43, 86368 Gersthofen, Germany

  Contracted by: Ahead Personal Süd GmbH

  Role: UPS-Dispatch
  - I have managed the UPS section of the dispatch department, sometimes with short-term assistance.

- After receiving customer orders, picking the ordered items, packing them accordingly, updating the stored item quantities in the warehouse, controlling the item quantities, and reporting any problems with the orders to other departments via email or phone.
- Due to prioritizing the completion of orders based on their due dates and work duration, as well as checking the quality of the items, the customer complaint rate has been reduced.

6/2016 - 5/2023

Amazon FC Graben GmbH

Amazonstraße 1, 86836 Graben, Deutschland

Fulfillment Center Associate

Roles had

- **Picker (on foot and with forklift)**
    - Picked the items from the warehouse shelves that the customers ordered.
    - Checked the quality of the items before they were taken, worked continuously, and sent the items to the next department.
    - Achieved 10-30% more than the expected performance.
- **Instructor**
    - Trained the newly hired employees.
    - Welcomed them, showed them everything they needed to know, and taught them to work independently within a single day.
    - Fulfilled it in English and German.
- **Conveyor Supervisor**
    - Ensured that the conveyor runs smoothly.
    - This role requires fast problem-solving, continuous availability, prioritization of problems, and contacting technicians for major issues.
    - Satisfied colleagues and superiors.
